

December 5, 2011

Hey everyone,

Well the semester is almost over now and it sure went by fast – I hope it wasn't too painful for most of you because we'll be right back here before you know it!

Geology Club has gained some new members this semester who are adding to the positive energy, and are pushing for even more cool and interesting trips. We are excited for another season of events that are already in the works, so make sure to come to the meetings next semester and voice your opinion. Here's some, but not all of the ideas that have been suggested so far...

- Day trip/camping trip for those that are interested in checking out Point Reyes National Seashore (Aaron found some cool waterfalls to check out!)
- Bowling Ball Beach
- Lava Beds National Monument
- Santa Cruz Castle Rock
- A camping trip to Lassen National Park towards the end of the semester, weather depending

Here is the updated schedule for you all:

***Our next meeting is scheduled for January 19th 4:30-5:30 in RM 2042 Lark Hall (Geology Lab). Remember that your input is important, and it's up to us to make this next semester a good one. I look forward to meeting new members!

***Also, we will be having a Christmas time Rock sale December 14th so come get some interesting gifts and support the club!

I hope that our club can continue to grow this next semester, having fun and learning about Geology out in the field, in spite of the upcoming weather conditions!

Brandon Magee

November 18, 2011

Hey everybody,

Sorry to say but we will not be going on the field trip to Angel Island this weekend. With last weekend's trip, and the upcoming holiday, and a shortage of time for signing and submitting liability waivers to administration, we thought it best to cancel the trip. I hope that everyone has a great weekend though, and coming Thanksgiving Break

Also, just a reminder for those of you that do not know, we have been meeting in room 2042 from 4:30-5:30pm on every other Thursday of the month for Geology Club, so if you want to drop in and voice your opinion, or just hang out you are welcome to do so! We met yesterday Nov. 17th, so the next meeting will take place Dec. 1st. Look forward to seeing to you there!

October 23, 2011

Hey ya'll

Some of this is has already been said, but there are a few events that have been updated, and people that have joined, so here's the 411.

***We are changing the date for the Bad Geology Movie night that was scheduled for Oct. 25th and combining it with Alfred Wegener's birthday party on Tues, Nov. 1st @ 5:30pm. So don't show up next Tuesday for a movie because there won't be one but... you can come that day (the 25th) between 10am-1pm to help set up for a rock sale that we will be having the following day....

-The Rock Sale (Oct. 26th) Tell your friends and come out Wed, Oct. 26th anytime from 10-2pm and support the Geology club by buying cool stuff! All proceeds go

directly into club funds to support any trip that YOU want to take. It's a win win!
Plus, Nick has donated a TON of petrified wood, so come and get it at rock bottom prices!

-Alfred Wegener Party (Nov 1st) – We are going to get together Tue, Nov. 1st for Mr. Supercontinent's birthday and watch Nature's Fury from National Geographic. Now this is also a potluck party so come in costume (something Geological) and bring your contribution to the feast!

-Middletown Geyser Power Plant Tour (Nov. 11th) – Our good friend Brian from Calpine is giving us a personal tour of their facility that we don't want to miss... this event is somewhat limited in space so if you're coming, make sure not to flake because we need an accurate head count. If you know that you can make it then go ahead and RSVP by no later than Nov. 3rd, and a list will be developed. More details will be posted as that date approaches.

-Angel Island (Nov. 20th) – This event is still on and more info will be posted accordingly

Geology Club Members,

~Tuesday evening at 5:30 we will have our first bad geology movie night of the semester. We will be showing Joe vs. the Volcano in the room where club meets, in room 2042 (geology lab). Come join us for pizza and lots of laughs making fun of the movie. Hope to see you there :D

~This last week we planned some events for the Fall. Our first trip will be on Sunday,

October 9th we will be hiking Mt. Tamalpais. We will be meeting up on campus and leaving at 9am.

~The last Tuesday of October (the 25th) we will be showing the second bad geology movie of the Fall. The movie showing will be 127 Hours, at 5:30 in Geology lab room.

~Tuesday November 1st we will have a special potluck party for Alfred Wegener's 131st birthday. I will have more on that event in the coming weeks.

~Friday November 11th (Veterans' Day) club will be getting a special tour of the Middletown Geysers.

~Sunday November 20th we will be going to Angel Island
I will have more details on the coming events as they come closer.

Hope you can make it to some of the planned events :D

P.S.

The club is in need of an ICC representative, which entails going to the weekly meetings in Bertolini from 12 to 1. Making these meetings a requirement to be a group of the college. If you are available to spare the time for the club let me know.

Geology Club Members:

ELECTION INFORMATION:

The time has come to vote for President and Vice-President of the Geology Club for the 2011-2012 academic year. I have put together a Zoomerang survey to

tally the results. Please take a couple minutes to follow the link and cast your vote (note that results are anonymous):

<http://www.zoomerang.com/Survey/WEB22D38AFDMB8/>

Please submit your results by midnight on Wednesday, Sept 14th.

MEETING TIME INFORMATION:

Our semester meeting time will be Thursdays from 4:30-5:30 in room 2042 (geology lab). Hope you can join us. Last week, we came up with a great list of trip and activity ideas. Stay tuned for news on upcoming events, and feel free to contribute ideas of your own!

Thank you,

September 2, 2011

Geo Club members,

1) I have put together a Doodle survey to find a meeting time that works for the majority... The choices are those where the officers and I could make it: Tuesdays 5-6pm or Thursdays 4:30-5:30pm.

Please weigh in, and we'll set the days for future meetings (this semester).
Access the survey at: <http://doodle.com/6bteynxgmpidiwy5>

2) Club Days is occurring this coming Wednesday, and we'd love it if several club members could volunteer to man our booth for a short time. We think the time is 10-2, and any time you could spare in there would be great. We're planning to have a small mineral sale and some photos of past trips just to make ourselves known. Other ideas, posters, etc., are welcome! Let us know!
